Product Number	OOMA00026
Product Page	www.avivasysbio.com/blocking-buffer-for-elisa-ooma00026.html
Name	Blocking Buffer for ELISA (OOMA00026)
Product Format	Liquid
Reconstitution and Storage	Store at 2-8C.
Datasheets/Manuals	Printable datasheet for OOMA00026
Specificity	A non mammalian blocking reagent supplied in PBS for assay systems involving membrane or other solid phase material. This reagent imparts superior stability and flow characteristics, while utilizing proteins that do not interact with mammalian antibodies.
Additional Information	<p>Buffer: PBS, pH 7.4</p> <p>Preservative: 0.09% Sodium azide</p> <p>Application: Suitable for use in ELISA and Western blot. Use at 1X concentration or with further dilution. Each laboratory should determine an optimum working dilution for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.</p>
Warning	This product contains sodium azide, which has been classified as Xn (Harmful), in European Directive 67/548/EEC in the concentration range of 0.1-1.0%. When disposing of this reagent through lead or copper plumbing, flush with copious volumes of water to prevent azide build-up in drains.

AVIVA SYSTEMS BIOLOGY manufactures and sells quality antibody products covering genome wide proteins.

This product is for Research Use Only. Not for diagnostic, human, or veterinary use.
Optimal conditions of its use should be determined by end users.
