Product Number	OOSA10388
Product Page	<a href="http://www.avivasysbio.com/igm-negative-control-oosa10388.html">www.avivasysbio.com/igm-negative-control-oosa10388.html</a>
Name	IgM NEGATIVE CONTROL (OOSA10388)
Isotype	IgM
Product Format	Purified IgM conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) - liquid
Description of Target	MOUSE IgM NEGATIVE CONTROL:FITC
Reconstitution and Storage	Store at +4°C. DO NOT FREEZE. This product should be stored undiluted. This product is photosensitive and should be protected from light. Should this product contain a precipitate we recommend microcentrifugation before use.
Datasheets/Manuals	Printable datasheet for <a href="#">OOSA10388</a>
Specificity	This product can be used as a negative control for direct FITC immunofluorescence staining (e.g. Flow Cytometry) when using mouse monoclonal antibodies to human cell surface antigens of isotype IgM. This enables an estimation of non-specific binding of mouse monoclonal antibodies to cell surface components in peripheral blood and tissue. Suitable for whole blood, Ficoll-separated preparations, frozen and paraffin embedded sections. This antibody recognises a rat cell surface marker and therefore cannot be used as a negative control in the species.
Additional Information	<b>Approx Protein Conc:</b> IgM concentration 0.1 mg/ml <b>Buffer solution:</b> Phosphate buffered saline pH7.4
Additional Information	<b>Fusion Partner:</b> Spleen cells from immunised BALB/c (Iffa Credo) mice were fused with cells of the mouse X63/Ag.8653 myeloma cell line.
Application Info	We recommend using this reagent at the same concentration as the test reagent.
Additional Information	<b>Label Protein Molar Ratio:</b> Purified IgM prepared by gel filtration from tissue culture supernatant <b>Preservative:</b> 0.09% - Sodium Azide 1% - Bovine Serum Albumin
Predicted Species Reactivity	Negative Control
Predicted Homology Based on Immunogen Sequence	Negative Control

AVIVA SYSTEMS BIOLOGY manufactures and sells quality antibody products covering genome wide proteins.

This product is for Research Use Only. Not for diagnostic, human, or veterinary use.  
Optimal conditions of its use should be determined by end users.
