<b>Product Number</b>	OOSB00001
<b>Product Page</b>	<a href="http://www.avivasysbio.com/7-aad-oosb00001.html">www.avivasysbio.com/7-aad-oosb00001.html</a>
<b>Name</b>	7-AAD (OOSB00001)
<b>Product Format</b>	<b>Liquid</b> 100 tests in 1 mL of PBS/sodium azide and a stabilizing agent.
<b>Description of Target</b>	ApoScreen 7-AAD is a ready-to-use cell viability dye for the exclusion of nonviable cells in flow cytometry analysis. This solution can be used in conjunction with phycoerythrin (PE) and fluorescein (FITC) conjugated antibodies in 2-color analysis due to minimal spectral overlap between 7-AAD, PE, and FITC fluorescence emissions.
<b>Reconstitution and Storage</b>	Store at 2-8°C. Protect from light.
<b>Datasheets/Manuals</b>	Printable datasheet for <a href="#">OOSB00001</a> Please click <a href="#">here</a> to view the MSDS.
<b>Additional Information</b>	<b>Excitation/emission:</b> 488/647 nm
<b>Application Info</b>	<b>FC:</b> 10 $\mu$ l/10 <sup>6</sup> cells. For flow cytometry, the suggested use of these reagents is in a final volume of 100 $\mu$ L.
<b>Warning</b>	7- AAD is a potential carcinogen. It is recommended that the user wear protective clothing, gloves, and eye/face protection. Avoid contact with skin and eyes. Reagent contains sodium azide. Sodium azide is very toxic if ingested or inhaled. Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute azide-containing compounds in running water before discarding to avoid accumulation of potentially explosive deposits in lead or copper plumbing.
<b>Dilution</b>	10 $\mu$ L/10 <sup>6</sup> cells
<b>Application</b>	FC

AVIVA SYSTEMS BIOLOGY manufactures and sells quality antibody products covering genome wide proteins.

This product is for Research Use Only. Not for diagnostic, human, or veterinary use.  
Optimal conditions of its use should be determined by end users.
