# Rabbit IgG-heavy and light chain cross-adsorbed Antibody

F(ab')<sub>2</sub> Goat Polyclonal                      Conjugate    HRP  
Antigen Affinity Purified  
Catalog No.    A120-314P  
Lot No.            A120-314P-5

**APPLICATIONS**                      WB, IHC, ICC, ELISA  
**SPECIES REACTIVITY**              Rabbit. Minimum reactivity to bovine, chicken, horse, human, mouse, rat and sheep  
**AMOUNT**                              1 ml  
**CONCENTRATION**                    0.5 mg/ml  
**STORAGE/SHELF LIFE**              2 - 8° C / 1 year from date of receipt  
**PHYSICAL STATE**                    Liquid  
**BUFFER**                                Phosphate Buffered Saline (PBS) containing 0.2% BSA and 0.05% Pro-Clean 400  
**ISOTYPE**                                IgG  
**ORIGIN**                                 USA  
**PRODUCTION PROCEDURES**        Antiserum was cross adsorbed using bovine, chicken, horse, human, mouse, rat and sheep immunosorbents to remove cross reactive antibodies. The antibody to rabbit IgG was isolated by affinity chromatography using antigen coupled to agarose beads. F(ab')<sub>2</sub> fragments were generated using a pepsin digestion. Fc fragments and whole IgG molecules have been removed. Fragments were conjugated to horseradish peroxidase (HRP).

Antibody concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4 equals 1.0 mg of IgG.

By immunoelectrophoresis and ELISA this antibody reacts specifically with rabbit IgG and with light chains common to other rabbit immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins. Less than 1% cross reactivity to bovine, chicken, horse, human, mouse, rat and sheep IgG was detected. This antibody may cross react with IgG from other species.

**APPLICATIONS**                      Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.

Western Blot                            1:5,000 - 1:50,000  
Immunohistochemistry              1:200 - 1:5,000  
Immunocytochemistry                1:200 - 1:5,000  
ELISA                                      1:10,000 - 1:100,000

**APPLICATION NOTES**              Not all listed applications have been specifically tested by our laboratory.
