Product Information

Tween®-20

Catalog Number: 22002

Unit Size: 50 mL

Color and Form: Viscous yellow liquid

Storage and Handling

Store at room temperature. Product is stable for at least one year from date of receipt when stored as recommended.

Product Description

Tween®-20 (polysorbate 20) is a polysorbate surfactant commonly used as a blocking and washing agent in immunoblotting assays. Tween®-20 is typically included in immunoblotting blocking buffers and washing buffers at a concentration of 0.1% to reduce non-specific antibody binding.
