PRODUCT AND SAFETY DATA SHEET

PRODUCT NAME: 5-(and-6)-Carboxy-2',7'-dichlorofluorescein diacetate, succinimidyl ester

CATALOG #: 90040

MOLECULAR INFORMATION: C₂₉H₁₇Cl₂O₁₁
Mwt: 626

**PROPERTIES:**

Color & Form White solid.
Purity ≥ 95% by TLC
Solubility Soluble in DMSO or DMF
λ_{ex}/λ_{em} 504/529nm (of hydrolysis product at pH7)

STORAGE AND HANDLING: Stored desiccated at -20°C and protect from light, especially when in solution.

APPLICATION: 5-(and-6)-Carboxy-2',7'-dichlorofluorescein diacetate, succinimidyl ester is a useful fluorescent tracer that can passively diffuse into cells and covalently label intracellular proteins, resulting in long-term cell labeling. The reagent itself is colorless and nonfluorescent but becomes brightly green fluorescent once it is hydrolyzed by intracellular esterases. The fluorescence of the dye is relatively insensitive to pH change and the labeling has been shown to be stable to formaldehyde or glutaldehyde fixation condition.

Ref.: *Development* **116**, 1087(1992).

TOXICITY: Unknown

FIRST AID: Potentially harmful. Avoid prolonged or repeated exposure. Avoid getting in eyes, on skin, or on clothing. Wash thoroughly after handling. If eye or skin contact occurs, wash affected areas with plenty of water for 15 minutes and seek medical advice. In case of inhaling or swallowing, move individual to fresh air and seek medical advice immediately.
