PRODUCT AND SAFETY DATA SHEET

PRODUCT NAME: 6-ROX, SE in DMSO**CATALOG #** 90098**MOLECULAR INFORMATION:** C₃₇H₃₃N₃O₇
Mwt: 631.7
[216699-36-4]**PROPERTIES:****Color & Form** Dark red solution**Absorption/Emission** 576nm/601nm (MeOH)**STORAGE AND HANDLING:** Store at -20 °C. Protect from light**APPLICATION:**

6-ROX is widely used in DNA sequencing and DNA probes based on fluorescent energy transfer (FRET). The succinimidyl ester reacts readily with primary or secondary amines under mild conditions. The coupling reaction is usually carried out in a pH ~8.5 buffer (for example, 0.1-0.2 M sodium bicarbonate buffer). Alternatively, the coupling reaction may also be carried out in an organic solvent for amino compounds that are insoluble in aqueous solution.

TOXICITY: Not established. Not listed by NTP, IARC or OSHA.

FIRST AID:	Potentially harmful. Avoid prolonged or repeated exposure. Avoid getting in eyes, on skin, or on clothing. Wash thoroughly after handling. If eye or skin contact occurs, wash affected areas with plenty of water for 15 minutes and seek medical advice. In case of inhaling or swallowing, move individual to fresh air and seek medical advice immediately.
