PRODUCT INFORMATION

Transcription Factor HIF-1 α Competitor dsDNA

Item No. 10009270

Overview and Properties

Contents:	This vial contains 120 μ l (10X) specific competitor double-stranded (dsDNA) oligonucleotides containing the HRE sequence (5'-ACGTG-3').
Storage:	-20°C
Stability:	\geq 2 years
Application:	The provided competitor double-stranded oligonucleotide is a specific competitor for HIF-1 α transcription factor binding and demonstrates specificity of the assay. This competitor dsDNA competes with the HRE sequence on the plate for HIF-1 α binding. The competitor oligonucleotide is not biotinylated and therefore will not bind to the plate. In the control nuclear extracts where HIF-1 α specific competitor oligonucleotide has been added, the signal intensity is significantly reduced. The competitor does not need to be run with every assay.

Procedures

Add 10 μ l of the HIF-1 α specific competitor dsDNA to each well as specified in the HIF-1 α Transcription Factor Assay Kit booklet (Item No. 10006910). These wells should show reduced signal intensity when compared to positive control or sample wells where competitor dsDNA has not been added.

CAUTIONS

For laboratory research use only. This reagent is not for human or veterinary use. This product has been tested and formulated to work exclusively with the HIF-1 α Transcription Factor Assay Kit from Cayman (Item No. 10006910). This product may not perform as described if used with other assay reagents or protocols.

WARNING
THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA
This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY
Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
