# PRODUCT INFORMATION

## CysLT<sub>1</sub> Receptor Polyclonal Antibody

Item No. 120500

### Overview and Properties

<b>Contents:</b>	This vial contains 500 µl peptide affinity-purified polyclonal antibody.
<b>Synonym:</b>	Cysteinyl Leukotriene Receptor 1
<b>Immunogen:</b>	Synthetic peptide from the C-terminal region of human CysLT <sub>1</sub>
<b>Species Reactivity:</b>	(+) Human, murine; other species not tested
<b>Uniprot No.:</b>	Q9Y271
<b>Form:</b>	Liquid
<b>Storage:</b>	-20°C (as supplied)
<b>Stability:</b>	≥3 years
<b>Storage Buffer:</b>	PBS, pH 7.2, with 50% glycerol and 0.02% sodium azide
<b>Host:</b>	Rabbit
<b>Application:</b>	Western blot; the recommended starting dilution 1:200. Other applications were not tested, therefore optimal working concentration/dilution should be determined empirically.

### Description

The cysteinyl leukotrienes (CysLTs; LTC<sub>4</sub>, LTD<sub>4</sub>, and LTE<sub>4</sub>) contract airway and pulmonary vascular smooth muscle, increase vascular permeability, and stimulate mucus secretion, thereby playing a major role in asthma.<sup>1-4</sup> LTC<sub>4</sub>, LTD<sub>4</sub>, and LTE<sub>4</sub> mediate their actions via at least two receptors designated CysLT<sub>1</sub> and CysLT<sub>2</sub>.<sup>1</sup> Cloning of the human CysLT<sub>1</sub> receptor reveals it is a 337 amino acid protein with a calculated molecular mass of 38,549.<sup>5</sup> The rank order of binding for leukotrienes to the cloned receptor, as determined using a radioligand binding assay, is LTD<sub>4</sub> >> LTC<sub>4</sub> = LTE<sub>4</sub> >> LTB<sub>4</sub>.<sup>5</sup> The mRNA for the human CysLT<sub>1</sub> receptor is expressed in spleen and peripheral blood leukocytes with smaller amounts in lung, placenta, and small intestine. Immunohistochemical studies reveal the receptor is expressed on eosinophils, mast cells, macrophages, neutrophils, and vascular endothelial cells in the nasal mucosa.<sup>6</sup>
