PRODUCT INFORMATION

4-hydroxy PCP (hydrochloride)

Item No. 14274

Formal Name:	4-(1-(piperidin-1-yl)cyclohexyl)phenol, monohydrochloride
Synonyms:	HPCP, <i>p</i> -hydroxy PCP, <i>para</i> -hydroxy PCP
MF:	C ₁₇ H ₂₅ NO • HCl
FW:	295.9
Purity:	≥98%
UV/Vis.:	λ _{max} : 232 nm
Supplied as:	A solid
Storage:	-20°C
Stability:	≥2 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

4-hydroxy PCP (hydrochloride) is supplied as a solid. 4-hydroxy PCP (hydrochloride) is only stable as a neat solid or in acidic methanol solution. The solubility of 4-hydroxy PCP (hydrochloride) is approximately 0.005-0.10 M HCl in methanol.

Description

4-hydroxy PCP (hydrochloride) (Item No. 14274) is an analytical reference standard categorized as an arylcyclohexylamine. 4-hydroxy PCP is a transient metabolite of PCP (Item Nos. ISO60194 | 14276) that degrades under neutral and basic conditions.¹ It spontaneously forms a quinone methide intermediate under physiological pH, which can form adducts or react with water to form *para*-hydroxyphenylcyclohexanol and, subsequently, *para*-hydroxyphenylcyclohexene. This product is intended for research and forensic applications.

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the [complete](#) Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
