Product Information

1,2-Dioleoyl-*sn*-glycero-3-PE

Item No. 15091

CAS Registry No.: 4004-05-1
Formal Name: 1,2-dioleoyl-*sn*-glycero-3-phosphatidylethanolamine
Synonyms: 1,2-Dioleoyl-*sn*-glycero-3-Phosphoethanolamine, 1,2-DOPE
MF: C₄₁H₇₈NO₈P
FW: 744.1
Purity: ≥98%
Stability: ≥2 years at -20°C
Supplied as: A crystalline solid

Laboratory Procedures

For long term storage, we suggest that 1,2-dioleoyl-*sn*-glycero-3-PE (1,2-DOPE) be stored as supplied at -20°C. It should be stable for at least two years.

1,2-DOPE is supplied as a crystalline solid. A stock solution may be made by dissolving the 1,2-DOPE in the solvent of choice. 1,2-DOPE is soluble in chloroform at a concentration of approximately 3.3 mg/ml.

1,2-DOPE is sparingly soluble in aqueous solutions. To enhance aqueous solubility, dilute the organic solvent solution into aqueous buffers or isotonic saline. If performing biological experiments, ensure the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. We do not recommend storing the aqueous solution for more than one day.

1,2-DOPE is a synthetic analog of naturally-occurring PE containing 18:1 fatty acids at the *sn*-1 and *sn*-2 positions. The compound features the same diacylglycerol stereochemistry as that of the natural compound. 1,2-DOPE can be used as an emulsifier to facilitate DNA-liposome complex transport across membranes. It is used in combination with cationic phospholipids to increase efficiency during DNA transfection studies as a non-viral method of gene delivery.¹⁻³

SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Cayman Chemical Company makes no warranty or guarantee of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman warrants only to the original customer that the material will meet our specifications at the time of delivery.

Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have any obligation or liability, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees. Buyer's exclusive remedy and Cayman's sole liability hereunder shall be limited to a refund of the purchase price, or at Cayman's option, the replacement, at no cost to Buyer, of all material that does not meet our specifications.

Said refund or replacement is conditioned on Buyer giving written notice to Cayman within thirty (30) days after arrival of the material at its destination. Failure of Buyer to give said notice within thirty (30) days shall constitute a waiver by Buyer of all claims hereunder with respect to said material.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
