Product Information

Xanthohumol

Item No. 15399

CAS Registry No.: 6754-58-1
Formal Name: (2E)-1-[2,4-dihydroxy-6-methoxy-3-(3-methyl-2-buten-1-yl)phenyl]-3-(4-hydroxyphenyl)-2-propen-1-one
MF: C₂₁H₂₂O₅
FW: 354.4
Purity: ≥98%
Stability: ≥2 years at -20°C
Supplied as: A crystalline solid
UV/Vis.: λ_{max}: 348, 368 nm

Laboratory Procedures

For long term storage, we suggest that xanthohumol be stored as supplied at -20°C. It should be stable for at least two years.

Xanthohumol is supplied as a crystalline solid. A stock solution may be made by dissolving the xanthohumol in the solvent of choice. Xanthohumol is soluble in organic solvents such as ethanol, DMSO, and dimethyl formamide (DMF), which should be purged with an inert gas. The solubility of xanthohumol in ethanol and DMF is approximately 3 mg/ml and approximately 2.5 mg/ml in DMSO.

Xanthohumol is sparingly soluble in aqueous buffers. For maximum solubility in aqueous buffers, xanthohumol should first be dissolved in DMSO and then diluted with the aqueous buffer of choice. Xanthohumol has a solubility of approximately 0.25 mg/ml in a 1:3 solution of DMSO:PBS (pH 7.2) using this method. We do not recommend storing the aqueous solution for more than one day.

Xanthohumol is a natural prenylated chalcone isolated from the hop plant, *H. lupulus*. Xanthohumol and its metabolites induce protective detoxification enzymes, at least in part *via* the nuclear factor erythroid-2-related factor 2 pathway.^{1,2} It inhibits phosphoinositide-dependent kinase 1 (IC₅₀ = 6.6 μM) but not PKC in an *in vitro* assay.³ Xanthohumol also can have anti-inflammatory, antioxidant, anti-carcinogenic, and osteogenic effects.⁴⁻⁶

WARNING: THIS PRODUCT IS FOR LABORATORY RESEARCH ONLY: NOT FOR ADMINISTRATION TO HUMANS. NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent *via* email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Cayman Chemical Company makes **no warranty or guarantee** of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman **warrants only** to the original customer that the material will **meet our specifications at the time of delivery**.

Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have **any obligation or liability**, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees.

Buyer's **exclusive remedy** and Cayman's sole liability hereunder shall be limited to a **refund** of the purchase price, or at Cayman's option, the **replacement**, at no cost to Buyer, of all material that does not meet our specifications.

Said refund or replacement is conditioned on Buyer giving written notice to Cayman within thirty (30) days after arrival of the material at its destination. Failure of Buyer to give said notice within thirty (30) days shall constitute a waiver by Buyer of all claims hereunder with respect to said material.

For further details, please refer to our **Warranty and Limitation of Remedy located on our website and in our catalog**.
