Product Information

Prostaglandin F_{2α} Alcohol methyl ether

Item No. 16014

CAS Registry No: 143656-18-2
Formal Name: 1-methoxy-9α,11α,15S-trihydroxyprosta-5Z,13E-diene
Synonym: AGN 191129
MF: C₂₁H₃₈O₄
FW: 3545
Purity: ≥ 98%
Stability: ≥ 2 years at -20°C
Supplied as: A solution in methyl acetate

Laboratory Procedures

For long term storage, we suggest that prostaglandin F_{2α} alcohol methyl ether (PGF_{2α}-OMe) be stored as supplied at -20°C. It will be stable for at least two years.

PGF_{2α}-OMe is supplied as a solution in methyl acetate. To change the solvent, simply evaporate the methyl acetate under a gentle stream of nitrogen and immediately add the solvent of choice. Solvents such as ethanol (9 mg/ml), DMSO (15 mg/ml), and dimethyl formamide (7 mg/ml) purged with an inert gas can be used. PGF_{2α}-OMe is stable for at least six months in these solvents if stored at -20°C.

Further dilutions of the stock solution into aqueous buffers or isotonic saline should be made prior to performing biological experiments. Ensure that the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. If an organic solvent-free solution of PGF_{2α}-OMe is needed, it can be prepared by evaporating the methyl acetate and directly dissolving the neat oil in aqueous buffers. The solubility of PGF_{2α}-OMe in PBS (pH 7.2) is approximately 0.16 mg/ml. We do not recommend storing the aqueous solution for more than one day.

PGF_{2α}-OMe is an analog of PGF_{2α} in which the C-1 carboxyl group has been replaced an O-methyl ether. The compound is reported to retain ocular hypotensive properties,^{1,2} but the receptors which mediate this activity have not been clearly documented.³

SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Cayman Chemical Company makes **no warranty or guarantee** of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman **warrants only** to the original customer that the material will **meet our specifications at the time of delivery**.

Cayman will carry out its delivery obligations with due care and skill. Thus, in no event will Cayman have **any obligation or liability**, whether in tort (including negligence) or in contract, for any direct, indirect, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, its directors or its employees. Buyer's **exclusive remedy** and Cayman's sole liability hereunder shall be limited to a **refund** of the purchase price, or at Cayman's option, the **replacement**, at no cost to Buyer, of all material that does not meet our specifications.

Said refund or replacement is conditioned on Buyer giving written notice to Cayman within thirty (30) days after arrival of the material at its destination. Failure of Buyer to give said notice within thirty (30) days shall constitute a waiver by Buyer of all claims hereunder with respect to said material.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
