PRODUCT INFORMATION

Tetrahydrozoline (hydrochloride)

Item No. 23004

CAS Registry No.: 522-48-5
Formal Name: 4,5-dihydro-2-(1,2,3,4-tetrahydro-1-naphthalenyl)-1H-imidazole, monohydrochloride
Synonym: Tetryzoline
MF: C₁₃H₁₆N₂ • HCl
FW: 236.7
Purity: ≥98%
Supplied as: A crystalline solid
Storage: 4°C
Stability: ≥2 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

Tetrahydrozoline (hydrochloride) is supplied as a crystalline solid. A stock solution may be made by dissolving the tetrahydrozoline (hydrochloride) in the solvent of choice. Tetrahydrozoline (hydrochloride) is soluble in organic solvents such as ethanol, DMSO, and dimethyl formamide (DMF), which should be purged with an inert gas. The solubility of tetrahydrozoline (hydrochloride) in ethanol and DMSO is approximately 25 mg/ml and approximately 20 mg/ml in DMF.

Further dilutions of the stock solution into aqueous buffers or isotonic saline should be made prior to performing biological experiments. Ensure that the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. Organic solvent-free aqueous solutions of tetrahydrozoline (hydrochloride) can be prepared by directly dissolving the crystalline solid in aqueous buffers. The solubility of tetrahydrozoline (hydrochloride) in PBS, pH 7.2, is approximately 10 mg/ml. We do not recommend storing the aqueous solution for more than one day.

Description

Tetrahydrozoline is an α_1 -adrenergic receptor (α_1 -AR) agonist.¹ Topical application to the eyes or nasal mucosa activates α_1 -ARs and induces vasoconstriction in rats, while oral administration activates central α_2 -ARs resulting in respiratory depression and hypotension in rats and rabbits.¹⁻³ Formulations containing tetrahydrozoline have been used to treat eye irritation and nasal congestion.¹

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
