PRODUCT INFORMATION

Salbutamol-d₉ Item No. 25234

CAS Registry No.: 1173021-73-2
Formal Name: α¹-[[[1,1-di(methyl-d₃)ethyl-2,2,2-d₃]amino]methyl]-4-hydroxy-1,3-benzenedimethanol
Synonyms: (±)-Salbutamol-d₉, DL-Salbutamol-d₉
MF: C₁₃H₁₂D₉NO₃
FW: 248.4
Chemical Purity: ≥98% (Salbutamol)
Deuterium Incorporation: ≥99% deuterated forms (d₁-d₉); ≤1% d₀
Supplied as: A solid
Storage: -20°C
Stability: ≥2 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

Salbutamol-d₉ is intended for use as an internal standard for the quantification of salbutamol (Item No. 21003) by GC- or LC-MS. The accuracy of the sample weight in this vial is between 5% over and 2% under the amount shown on the vial. If better precision is required, the deuterated standard should be quantitated against a more precisely weighed unlabeled standard by constructing a standard curve of peak intensity ratios (deuterated versus unlabeled).

Salbutamol-d₉ is supplied as a solid. A stock solution may be made by dissolving the salbutamol-d₉ in the solvent of choice. Salbutamol-d₉ is slightly soluble in the organic solvent methanol, which should be purged with an inert gas. It is also slightly soluble in water.

Description

Salbutamol is an agonist of the β₂-adrenergic receptor (β₂-AR; K_d = 759 nM in a radioligand binding assay using CHO cells expressing the human receptor).¹ It is selective for β₂-ARs over β₁- and β₃-ARs (K_ds = 46.8 and 21.9 μM, respectively). Salbutamol (25-50 μg/kg, i.v.) reduces acetylcholine-induced bronchospasm in anesthetized guinea pigs.² It also reduces response of bronchial muscle to efferent vagal stimulation in anesthetized cats and dogs when administered at doses ranging from 1 to 2.5 and 10 to 20 μg/kg, respectively. Nebulized salbutamol reduces transpulmonary pressure in recurrent airway obstruction-affected horses (EC₅₀ = 39.7 μg).³ Formulations containing salbutamol have been used in the treatment of asthma and chronic obstructive pulmonary disease (COPD).

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the [complete](#) Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
