PRODUCT INFORMATION

Salmeterol-d$_3$
Item No. 26449

CAS Registry No.:	497063-94-2
Formal Name:	6-hydroxy-α^3-[[[6-(4-phenylbutoxy)hexyl]amino] methyl]-1,3-benzenedimethan-α^1,α^1,α^3-d$_3$-ol
MF:	C$_{25}$H$_{34}$D$_3$NO$_4$
FW:	418.6
Chemical Purity:	≥98% (Salmeterol)
Deuterium Incorporation:	≥99% deuterated forms (d$_1$-d$_3$); ≤1% d$_0$
Supplied as:	A solid
Storage:	-20°C
Stability:	≥2 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

Salmeterol-d$_3$ is intended for use as an internal standard for the quantification of salmeterol (Item No. 16009) by GC- or LC-MS. The accuracy of the sample weight in this vial is between 5% over and 2% under the amount shown on the vial. If better precision is required, the deuterated standard should be quantitated against a more precisely weighed unlabeled standard by constructing a standard curve of peak intensity ratios (deuterated *versus* unlabeled).

Salmeterol-d$_3$ is supplied as a solid. A stock solution may be made by dissolving the salmeterol-d$_3$ in the solvent of choice. Salmeterol-d$_3$ is soluble in organic solvents such as ethanol and DMSO, which should be purged with an inert gas. The solubility of salmeterol-d$_3$ in these solvents is approximately 50 and 100 mM, respectively.

Description

Salmeterol is a long-acting β$_2$-adrenergic receptor agonist (β$_2$-AR; EC$_{50}$s = 0.79, 63.1, and 9.4 nM for β$_2$-, β$_1$-, and β$_3$-ARs, respectively).[1] It inhibits electrically-stimulated contraction of isolated guinea pig trachea strips (EC$_{50}$ = 2.51 nM) and histamine-induced bronchoconstriction in guinea pigs *via* aerosol administration of doses ranging from 0.12 to 12 mM.[2] Salmeterol binds to an exosite domain of β$_2$-adrenergic receptors, producing a slow onset of action and prolonged activation.[3] Formulations containing salmeterol have been used in the treatment of asthma, including exercise-induced asthma, and chronic obstructive pulmonary disease.
