PRODUCT INFORMATION

Ganoderiol F

Item No. 39775

CAS Registry No.: 114567-47-4
Formal Name: 26,27-dihydroxy-lanosta-7,9(11),24-trien-3-one
MF: C₃₀H₄₆O₃
FW: 454.7
Purity: ≥98%
Supplied as: A solid
Storage: -20°C
Stability: ≥4 years
Item Origin: Fungus/*Ganoderma* sp.

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

Ganoderiol F is supplied as a solid. A stock solution may be made by dissolving the ganoderiol F in the solvent of choice, which should be purged with an inert gas. Ganoderiol F is soluble in organic solvents such as acetone, chloroform, dichloromethane, DMSO, and ethyl acetate.

Description

Ganoderiol F is a triterpenoid that has been found in *G. lucidum* and has diverse biological activities.¹⁻⁴ It reduces LPS-induced nitric oxide (NO) production and increases heme oxygenase-1 (HO-1) levels in RAW 264.7 cells when used at a concentration of 50 μM.¹ Ganoderiol F is a farnesoid X receptor (FXR) agonist, inducing reporter gene expression in HEK293 cells expressing the recombinant human receptor (EC₅₀ = 5 μM).² It inhibits complement-dependent hemolysis of isolated sheep red blood cells (IC₅₀ = 48 μM).³ Ganoderiol F also reduces HIV-1 viral proliferation in MT-4 cells (IC₅₀ = 7.8 μg/ml).⁴

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
