Guinea Pig Complement, Mouse Cell Adsorbed

CLC1001

Lot: 15100102

DESCRIPTION:

Our mouse cell adsorbed guinea pig complement is produced by adsorbing freshly prepared complement serum with mouse lymphocytes in order to remove background lytic activity. Guinea Pig complement adsorbed with mouse cells exhibits very low toxicity for mouse lymphocytes. The total processing for adsorbed complement products is less than 3 hours. It is intended for use as a source of complement for any of the standard lymphocytotoxicity and hemolytic procedures.

PRESENTATION:

5 x 1 mL of freshly prepared mouse cell adsorbed guinea pig complement with no preservatives, frozen.

STORAGE:

Divide into useful aliquots and store at -80°C. Avoid repeated freeze/thaw cycles.

STABILITY:

When properly stored, this product will keep its potency for 6 months.

STERILITY:

This product is NOT sold as sterile but can be sterilized by filtration before use.

APPLICATIONS:

This reagent is suitable for use in lymphocytotoxicity and hemolytic procedures

Optimum conditions for use of this antibody in analytical procedures should be established in each laboratory

For Research Use Only
