Purified Mouse Anti-Human Chromogranin A

CLSG36637

Lot:

Description: This monoclonal antibody is directed against human Chromogranin A. Chromogranin A is a 439 amino acid protein present in secretory granules of a wide variety of endocrine cells and neurons. Positive staining is seen in the secretory granules of parathyroid, adrenal medulla, anterior pituitary gland and Langerhans islets of the pancreas. This antibody stains a variety of neuroendocrine tumors.

Presentation: 1 ml, purified immunoglobulin containing sodium azide (NaN_3) as a preservative.

Immunogen: BALB/C mice were immunized with human pheochromocytoma.

Isotype: Mouse IgG₁ kappa

Clone: LK2H10

Applications: This antibody is suitable for use in immunohistochemistry (formalin/paraffin tissues). We recommend a starting dilution of 1:25 – 1:100 with an ABC method, and an incubation period of 30 minutes at room temperature. This antibody is also suitable for Western Blotting (1:50 – 1:100).

For optimal results in various applications, it is recommended that each investigator determine dilutions and incubation period appropriate for individual use.

Positive Control: Pancreas

Cellular Localization: Cytoplasmic

Storage: 4°C. Check label for expiry date.
