ZDHHC17 Polyclonal Antibody

Catalog Number: E-AB-92742

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human, Mouse, Rat
Immunogen	Recombinant fusion protein of human ZDHHC17
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.02% sodium azide, 50% glycerol, pH 7.3.

Applications Recommended Dilution

WB	1:500-1:2000
-----------	--------------

Data

Western blot analysis of extracts of 293T cells using ZDHHC17 Polyclonal Antibody at 1:1000 dilution.

Observed MW: 73kDa

Calculated Mw: 22kDa/23kDa/72kDa

Preparation & Storage

Storage Store at -20°C. Avoid freeze/thaw cycles.

Background

Palmitoyltransferase that catalyzes the addition of palmitate onto various protein substrates and is involved in a variety of cellular processes. Has no stringent fatty acid selectivity and in addition to palmitate can also transfer onto target proteins myristate from tetradecanoyl-CoA and stearate from octadecanoyl-CoA (By similarity). Palmitoyltransferase specific for a subset of neuronal proteins, including SNAP25, DLG4/PSD95, GAD2, SYT1 and HTT. Also palmitoylates neuronal protein GPM6A as well as SPRED1 and SPRED3. Could also play a role in axonogenesis through the regulation of NTRK1 and the downstream ERK1/ERK2 signaling cascade (By similarity). May be involved in the sorting or targeting of critical proteins involved in the initiating events of endocytosis at the plasma membrane. May play a role in Mg²⁺ transport. Could also palmitoylate DNAJC5 and regulate its localization to the Golgi membrane (By similarity).
