Background

In cell culture, microbial contamination is a headache for researchers, and microbial contamination from the cell room, incubator, water bath, water tray is often easily overlooked. Room SafeGuard, developed by Elabscience, has a strong effect on killing bacteria and mold spores. It is mainly used for disinfection of fungi and bacteria in the cell room and CO₂ incubator space and corners. This product is colorless and has a fragrance. It can be directly sprayed and used without any toxic side effects on the human body. It can effectively prevent microbial contamination by removing bacteria, fungi and spores in the cell room and CO₂ incubator space and corners.

Notes

1. This product is for research use only.
2. It is necessary to pay attention to the aseptic operation and avoid the pollution.
