### Background

In cell culture, microbial contamination is a headache for researchers, and microbial contamination from the cell room, incubator, water bath, water tray is often easily overlooked. Room SafeGuard, developed by Elabscience, is a bacteriostatic agent for pollution control of water bath in cell room and water tray in cell incubator. It has super antibacterial function and can maintain the sterile state of the water bath and the water tray for 7-10 days under normal conditions. Especially for stubborn fungi, it has super strong scavenging and inhibition effect, which can effectively prevent microbial contamination.

### Notes

1. This product is for research use only.
2. It is necessary to pay attention to the aseptic operation and avoid the pollution.
