0.65% Normal Saline

Cat. No: PB180351
Size: 500mL

General Information

Concentration	1×
pH	7.2-7.4
HEPES	Negative
NaCl	6500mg/L
Storage	2-8°C, Shading Light
Shipping	RT
Expiration date	6 months

Background

Normal saline refers to the sodium chloride solution commonly used in physiological experiments or clinical practice, whose osmotic pressure is equal to that of animals or human body. It is commonly used as a fluid supplement and is also often used in vitro. Different types of animals require different concentrations of normal saline. Mammals use 0.9% normal saline, birds use 0.75% normal saline, and amphibians use 0.65% normal saline.

Notes

1. This product is for research use only.
2. This product is sterilized by 0.22 μ m filtration.
3. It is necessary to pay attention to the aseptic operation and avoid the pollution.
