Psoriasin (S-100 homolog). Sheep Polyclonal Antibody

BACKGROUND

Exalpha's anti - human Psoriasin antibody detects psoriasin by both western blot and on formalin and paraffin fixed tissue sections. The staining on tissue sections is both nuclear and cytoplasmic. Although its expression in breast cancer is downregulated (in both preinvasive and invasive cancers) when its expression is maintained in breast cancer the expression of psoriasin is correlated with estrogen receptor negativity and node positivity and therefore with poor prognostic features. Further it is correlated with the degree of inflammation in the tumor which is consistent with its being a chemotactic factor.

ORDERING INFORMATION

CATALOG NUMBER

N100P

SIZE

250 µg

FORM

Unconjugated

HOST/CLONE

Sheep

FORMULATION

Provided as solution in phosphate buffered saline with 0.08% sodium azide

CONCENTRATION

See vial for concentration

ISOTYPE

IgG

APPLICATIONS

Western Blot, Immunoprecipitation, Immunohistochemistry

SPECIES REACTIVITY

Human

ACCESSION NUMBER

P31151, Human

IMMUNOGEN

POSITIVE CONTROL/TISSUE EXPRESSION

COMMENTS

Applications: Western Blotting, Immunohistochemistry of paraffin and formalin fixed tissues.

PURIFICATION

Ammonium Sulfate Precipitation

SHIP CONDITIONS

Room Temperature

STORAGE CUSTOMER

Product should be stored at -20°C. Aliquot to avoid freeze/thaw cycles

STABILITY

Antibodies are stable for one year from purchase if stored frozen

REFERENCES
