p130. Mouse Monoclonal Antibody
p130; Retinoblastoma-like protein 2; RBR-2; PRB2

BACKGROUND

The immunogen used was a recombinant protein to the N terminus of p130. p130 is related both in structure and function to the retinoblastoma tumor suppressor protein and p107 (collectively known as pocket proteins) and are known to regulate the activity of E2F transcription factors. E2F transcription factors regulate the expression of a number of genes important in cell proliferation, particularly those involved in the progression through G1 and into the S-phase of the cell cycle. Binding of p130 converts E2F transcription factors from transcriptional activators to transcriptional repressors. This antibody recognizes both the phosphorylated and unphosphorylated forms of p130 at a MW of 130kDa.

IMMUNOGEN

Recombinant protein to the N terminus of p130

POSITIVE CONTROL/TISSUE EXPRESSION

This antibody recognizes both the phosphorylated and unphosphorylated forms of p130 at a MW of 130kDa. And is suitable for use in western blot with his- tagged or GST tagged proteins.

COMMENTS

Western Blots at 1:1000

ORDERING INFORMATION

CATALOG NUMBER
N105M

SIZE

100 µg

FORM

Unconjugated

HOST/CLONE

Mouse Clone KAB40

FORMULATION

Provided as solution in phosphate buffered saline with 0.08% sodium azide

CONCENTRATION

See vial for concentration

ISOTYPE

IgG1

APPLICATIONS

Western Blot

SPECIES REACTIVITY

Human, Mouse, Rat

ACCESSION NUMBER

Q08999, Human

PURIFICATION

Protein A/G Chromatography

SHIP CONDITIONS

Room Temperature

STORAGE CUSTOMER

Product should be stored at -20°C. Aliquot to avoid freeze/thaw cycles

STABILITY

Products are stable for one year from purchase when stored properly
