# Chicken anti Clostridium difficile Binary Toxin, Subunit B, conjugated with Biotin

exalpha.com/products/chicken-anti-clostridium-difficile-binary-toxin-subunit-b-conjugated-with-biotin/ACdBTSB-B

Catalog number: ACdBTSB-B

Product Type	Primary antibodies
Units	0.1 mg
Host	Chicken
Application	ELISA Western Blotting

#### **Source**

Chickens were immunized with highly purified Binary Toxin, B subunit, purified from Clostridium difficile. After multiple immunizations in Freund's adjuvant, eggs were collected and the IgY purified. Anti-Clostridium difficile Binary Toxin, Subunit B was immunoaffinity purified using the immunogen immobilized on a solid support and conjugated to Biotin.

#### **Product**

Product Form: Biotin conjugated

Formulation: Phosphate buffered saline, pH 7.2, 50% glycerol with 0.01% Thimerosal

Purification Method: Egg-yolk derived IgY Affinity Purified

Concentration: See vial for concentration.

#### **Applications**

Used in ELISA with its unconjugated counterpart (Cat. # ACdBTSB) as capture (1 ug/well), this antibody at 1:1000 to 1:5000 dilution can detect as little as 1 ng/ml of the Binary Toxin, Subunit B. Optimal working dilutions should be determined for your particular assay conditions.

#### **Storage**

Product should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

Shipping Conditions: Ship at ambient temperature.

#### **Caution**

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. It may contain hazardous ingredients. Please refer to the Safety Data Sheets (SDS) for additional information and proper handling procedures. Dispose product remainders according to local regulations. This datasheet is as accurate as reasonably achievable, but Exalpha Biologicals accepts no liability for any inaccuracies or omissions in this information.
