## Chicken anti Green Fluorescent Protein (GFP) [*Neisseria gonorrhoeae*]

[exalpha.com/products/chicken-anti-green-fluorescent-protein-gfp-neisseria-gonorrhoeae/AGFP](https://www.exalpha.com/products/chicken-anti-green-fluorescent-protein-gfp-neisseria-gonorrhoeae/AGFP)

Catalog number: **AGFP**

Product Type	Primary antibodies
Units	10 mg
Host	Chicken
Application	ELISA Western Blotting

### Source

Chickens were immunized with recombinant full-length bacterial gonococci Green Fluorescent Protein (GFP) [*Neisseria gonorrhoeae*] expressed in *E. coli* cells. After multiple immunizations in Freund's adjuvant, eggs were collected and the IgY purified.

### Product

*Product Form:* Egg yolk-derived purified IgY

*Formulation:* Phosphate buffered saline, pH 7.2 with 0.075% sodium azide

*Purification Method:* Egg yolk-derived purified IgY (non affinity purified)

*Concentration:* See vial for concentration.

### Applications

In a Western blot, the anti-GFP used at between 1:3000 and 1:5000 dilution could detect 10 ng of GFP in an A549 cell lysate (see image). Optimal conjugate working dilutions should be determined for your particular assay conditions.

### Storage

Product should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

### Caution

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. It may contain hazardous ingredients. Please refer to the Safety Data Sheets (SDS) for additional

information and proper handling procedures. Dispose product remainders according to local regulations. This datasheet is as accurate as reasonably achievable, but Exalpha Biologicals accepts no liability for any inaccuracies or omissions in this information.
