## Chicken anti HA (Hemagglutinin) Epitope

[exalpha.com/products/chicken-anti-ha-hemagglutinin-epitope/AHA](https://www.exalpha.com/products/chicken-anti-ha-hemagglutinin-epitope/AHA)

Catalog number: **AHA**

Product Type	Primary antibodies
Units	0.1 mg
Host	Chicken
Application	ELISA Western Blotting

### Source

Chickens were immunized with YPYDVPDYA (influenza hemagglutinin-HA- epitope) conjugated to KLH. After multiple immunizations in Freund's adjuvant, eggs were collected and the immunoglobulin fraction prepared. Antibodies were immunoaffinity purified using the peptide immobilized on a solid support.

### Product

Antibody in phosphate buffered saline containing 0.1% sodium azide

*Product Form:* Affinity purified

*Concentration:* See vial for concentration.

### Applications

ELISA: The anti HA diluted 1:10,000 gave an O.D. = 1.0 in a 15 minute reaction against peptide conjugated to a different carrier than used for anti peptide purification. In Western Blot analyses, the chicken anti-HA was an effective probe at 1:500 dilution. This antibody has also been verified in flow cytometry applications.

### Storage

Product should be stored at -20°C. Aliquot to avoid freeze/thaw cycles.

*Shipping Conditions:* Ship at ambient temperature.

### Caution

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. It may contain hazardous ingredients. Please refer to the Safety Data Sheets (SDS) for additional

information and proper handling procedures. Dispose product remainders according to local regulations. This datasheet is as accurate as reasonably achievable, but Exalpha Biologicals accepts no liability for any inaccuracies or omissions in this information.
