Goat anti Chicken IgY Fc fragment

[exalpha.com/products/goat-anti-chicken-igy-fc-fragment/AlgYFc](https://www.exalpha.com/products/goat-anti-chicken-igy-fc-fragment/AlgYFc)

Catalog number: **AIgYFc**

Product Type	Secondary antibodies
Units	0.5 mg
Host	Goat
Species Reactivity	Chicken
Application	ELISA Western Blotting

Source

Goats were immunized with highly purified chicken IgY Fc fragment isolated from normal chicken serum. The resulting anti IgY Fc was passed over an Fab immunoabsorbant and the anti Fc immunoaffinity purified from a chicken IgY immunoabsorbant.

Product

Affinity purified goat anti-chicken IgY Fc fragment in PBS pH 7.2, containing 0.09% sodium azide.

Product Form: Affinity purified

Concentration: See vial for concentration.

Specificity

Chicken IgY Fc fragment

Applications

The affinity purified antibody react only with IgY and not IgM or IgA chicken immunoglobulins by immunodiffusion and IEP techniques. This product is suitable for ELISA and immunoblotting. Optimal working dilutions should be determined for your particular assay conditions.

Storage

Product can be stored at 4°C for a short period, but should be stored at -20°C for longer storage periods. Aliquot to avoid freeze/thaw cycles.

Shipping Conditions: Ship at ambient temperature.

Caution

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. It may contain hazardous ingredients. Please refer to the Safety Data Sheets (SDS) for additional information and proper handling procedures. Dispose product remainders according to local regulations. This datasheet is as accurate as reasonably achievable, but Exalpha Biologicals accepts no liability for any inaccuracies or omissions in this information.
