10X Tris-EDTA Buffer pH9.0

Cat No. GTX03603

Application IHC-P

Package
500 ml

PRODUCT

Summary

Shi et al. (1991) have reported that treating tissue sections with a heavy metal solution in a microwave oven can cover masked antigens significantly. However, heavy metals in the solution increase the risk of toxic exposure to lab personnel. To reduce this risk, we have developed an antigen unmasking solution which is free of heavy metals. The reagent is provided in a convenient 10X concentrate. Use of this antigen recovery buffer avoids unnecessary heavy metal exposure to lab personnel and handling and disposal issues.

PROPERTIES

Form Liquid

Storage Store at room temperature.

Conjugation Unconjugated

Note For laboratory use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.
