## Data Sheet

### MEXi-CM

#### Culture medium for MEXi-293E cells

Cat. No.: 2-6010-010

Version: 4.0  
Revision Date: 03.06.2021

|                          |                                                                                                                                                                                                                                                     |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>       | <b>MEXi-CM is a culture medium especially developed for growth of high-density MEXi-293E cells. It is part of the MEXi mammalian expression system.</b>                                                                                             |
| <b>Medium Properties</b> | Serum free, chemically defined, 120 µg/l biotin                                                                                                                                                                                                     |
| <b>Endotoxin</b>         | <10 EU/ml                                                                                                                                                                                                                                           |
| <b>Specificity</b>       | MEXi-293E cells                                                                                                                                                                                                                                     |
| <b>Form</b>              | Suspension                                                                                                                                                                                                                                          |
| <b>Amount</b>            | 1000 ml                                                                                                                                                                                                                                             |
| <b>Stability</b>         | 6 months after shipping                                                                                                                                                                                                                             |
| <b>Storage</b>           | Recommended: 2-8 °C, protect from light                                                                                                                                                                                                             |
| <b>Shipping</b>          | Room temperature                                                                                                                                                                                                                                    |
| <b>Hazards</b>           | Product is not classified as hazardous according to (EC) No 1272/2008 [CLP].<br>A Material Safety Data Sheet is provided.                                                                                                                           |
| <b>Application</b>       | It is suited for cultivation of MEXi-293E cells. If Strep-tag®II or Twin-Strep-tag® proteins should be purified from culture supernatant, free biotin can be blocked by adding 1.9 ml BioLock solution (Cat. No. 2-0205-050) prior to purification. |
