

# SZABO SCANDIC

Part of Europa Biosite

## Produktinformation

Forschungsprodukte & Biochemikalien

Zellkultur & Verbrauchsmaterial

Diagnostik & molekulare Diagnostik

Laborgeräte & Service

Weitere Information auf den folgenden Seiten!  
See the following pages for more information!

### Lieferung & Zahlungsart

siehe unsere [Liefer- und Versandbedingungen](#)

### Zuschläge

- Mindermengenzuschlag
- Trockeneiszuschlag
- Gefahrgutzuschlag
- Expressversand

## ADP-Glucose disodium

Cat. No.:	HY-136830
CAS No.:	102129-65-7
Molecular Formula:	C <sub>16</sub> H <sub>23</sub> N <sub>5</sub> Na <sub>2</sub> O <sub>15</sub> P <sub>2</sub>
Molecular Weight:	633.31
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

#### Description

ADP-Glucose disodium is an immediate precursor for the biosynthesis of storage polysaccharides in plants, green algae and cyanobacteria, and structural polysaccharides in some bacteria, by the addition of glucose. It is used to produce amylose, amylopectin, starch and other polysaccharides by amylose synthase or starch synthase in plastids. ADP-Glucose is usually produced in plastids, although it can be biosynthesized in the cytoplasm of some grasses and imported into plastids by membrane-bound transporters<sup>[1][2]</sup>.
