

# SZABO SCANDIC

Part of Europa Biosite

## Produktinformation

Forschungsprodukte & Biochemikalien

Zellkultur & Verbrauchsmaterial

Diagnostik & molekulare Diagnostik

Laborgeräte & Service

Weitere Information auf den folgenden Seiten!  
See the following pages for more information!

### Lieferung & Zahlungsart

siehe unsere [Liefer- und Versandbedingungen](#)

### Zuschläge

- Mindermengenzuschlag
- Trockeneiszuschlag
- Gefahrgutzuschlag
- Expressversand

## 2-Amino-5-fluorobenzoic acid

Cat. No.:	HY-34053		
CAS No.:	446-08-2		
Molecular Formula:	C <sub>7</sub> H <sub>6</sub> FNO <sub>2</sub>		
Molecular Weight:	155.13		
Target:	Biochemical Assay Reagents		
Pathway:	Others		
Storage:	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

### BIOLOGICAL ACTIVITY

<b>Description</b>	2-Amino-5-fluorobenzoic acid is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
<b>In Vitro</b>	2-Amino-5-fluorobenzoic acid is a toxic antimitabolite for the tryptophan pathway in yeast that can be used to counterselect for TRP1, a commonly used genetic marker in <i>S. cerevisiae</i> . Because this trp1 strain lacks the enzymes required for the conversion of anthranilic acid to tryptophan, it is resistant to 2-amino-5-fluorobenzoic acid feedback inhibition, enabling a growth-based, positive selection of the TRP1 marker. 2-Amino-5-fluorobenzoic acid is frequently used in genetic procedures that involve plasmid manipulations. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

**Caution: Product has not been fully validated for medical applications. For research use only.**
