AgAuSe QDs

Cat. No.:	HY-D1394
Target:	Fluorescent Dye
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

AgAuSe QDs

BIOLOGICAL ACTIVITY

Description	AgAuSe QDs (AgAuSe) is a near infrared (NIR) fluorescent quantum dots (QDs), with a bright emission from 820 to 1170 nm. AgAuSe QDs can be used for the research in biomedical imaging and NIR devices ^[1] .
In Vitro	AgAuSe QDs has a bright emission from 820 to 1170 nm and achieved a record absolute photoluminescence quantum yield (PLQY) of 65.3% at 978 nm emission among NIR-II QDs without a toxic element and a long lifetime of 4.58 μ s ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
