

# SZABO SCANDIC

Part of Europa Biosite

## Produktinformation

Forschungsprodukte & Biochemikalien

Zellkultur & Verbrauchsmaterial

Diagnostik & molekulare Diagnostik

Laborgeräte & Service

Weitere Information auf den folgenden Seiten!  
See the following pages for more information!

### Lieferung & Zahlungsart

siehe unsere [Liefer- und Versandbedingungen](#)

### Zuschläge

- Mindermengenzuschlag
- Trockeneiszuschlag
- Gefahrgutzuschlag
- Expressversand

## Citric acid-<sup>13</sup>C<sub>3</sub>

<b>Cat. No.:</b>	HY-N1428S3
<b>CAS No.:</b>	302912-06-7
<b>Molecular Formula:</b>	C <sub>3</sub> <sup>13</sup> C <sub>3</sub> H <sub>8</sub> O <sub>7</sub>
<b>Molecular Weight:</b>	195.1
<b>Target:</b>	Apoptosis; Endogenous Metabolite; Antibiotic
<b>Pathway:</b>	Apoptosis; Metabolic Enzyme/Protease; Anti-infection
<b>Storage:</b>	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

<b>Description</b>	Citric acid- <sup>13</sup> C <sub>3</sub> is the <sup>13</sup> C labeled Citric acid[1]. Citric acid is a natural preservative and food tartness enhancer. Citric acid induces apoptosis and cell cycle arrest at G2/M phase and S phase in HaCaT cells. Citric acid cause oxidative damage of the liver by means of the decrease of antioxidative enzyme activities. Citric acid causes renal toxicity in mice[2][3][4].
<b>In Vitro</b>	Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs <sup>[1]</sup> . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
