Phospholipase D, cabbage

Cat. No.:	HY-P2812B
CAS No.:	9001-87-0
Target:	Phospholipase
Pathway:	Metabolic Enzyme/Protease
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

Phospholipase D, cabbage

BIOLOGICAL ACTIVITY

Description

Phospholipase D, cabbage is an enzyme of the phospholipase superfamily. Phospholipase D, cabbage is widely found in bacteria, yeast, plants, animals and viruses and is often used in biochemical research. Phospholipase D, cabbage can catalyze the hydrolysis of the phosphodiester bond of glycerophospholipids to produce phosphatidic acid and soluble choline. Phospholipase D, cabbage is involved in a variety of disease-related processes, including diabetes, atherosclerosis, obesity, tumorigenesis, immune response and neuroendocrine function^[1].
