Hyaluronate lyase

Cat. No.:	HY-P2957
CAS No.:	37259-53-3
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

Hyaluronate lyase

BIOLOGICAL ACTIVITY

Description

Hyaluronate lyase can cleave hyaluronate (HA) and produce unsaturated disaccharides through a β -elimination reaction. The resulting disaccharides further trigger the downstream pathway and catalyze the next reaction. Hyaluronate lyase helps *Streptococcus dysgalactiae* subsp. *equisimilis* (SDSE) acquire nutrients from the host, causing bacterial pathogenicity^[1].
