Fulranumab

Cat. No.:	HY-P99200
CAS No.:	902141-80-4
Target:	Others
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	Fulranumab is a human IgG2 monoclonal antibody against nerve growth factor (NGF) and can be used for the research of pain ^[1] .
IC₅₀ & Target	NGF ^[1]
In Vitro	Fulranumab (200 µg/mL; 60 min) completely inhibits 10 ng/mL anti-fulranumab monkey polyclonal antibody, inhibits 100 and 1,000 ng/mL of anti-fulranumab antibody by over 90% ^[1] . Fulranumab (5-100 µg/mL) partially and dose dependently suppresses the false-positive anti-drug antibody (ADA) caused by acid pretreatment NGF ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
