Drozitumab

| | |
|-----------|---|
| Cat. No.: | HY-P99286 |
| CAS No.: | 912628-39-8 |
| Target: | Apoptosis |
| Pathway: | Apoptosis |
| Storage: | Please store the product under the recommended conditions in the Certificate of Analysis. |

BIOLOGICAL ACTIVITY

| | |
|--------------------|---|
| Description | Drozitumab (PRO 95780) is a human agonistic monoclonal antibody which binds the death receptor DR5. Drozitumab has potent antitumor activity against rhabdomyosarcoma ^{[1][2][3]} . |
| In Vitro | Drozitumab selectively eliminates cancer stem cells (CSCs), resulting in tumor growth inhibition and even regression of pancreatic tumors ^[3] . Drozitumab induces apoptosis in mesenchymal TNBC cell lines but not in cell lines from other breast cancer subtypes ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only. |
