ABP 215

Cat. No.:	HY-P99476
CAS No.:	1438851-35-4
Target:	VEGFR
Pathway:	Protein Tyrosine Kinase/RTK
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	ABP 215 (Bevacizumab-awwb), a Bevacizumab (Bevacizumab (HY-P9906)) biosimilar, is a humanized IgG1 monoclonal antibody targeting VEGFA (VEGFR). ABP 215 has anticancer effects, and can be used metastatic colorectal cancer (mCRC) research ^{[1][2]} .
In Vitro	ABP 215 (Bevacizumab-awwb) binds to VEGF-A and prevents the binding of VEGF-A to VEGF receptors on the surface of endothelial cells, inhibiting endothelial cell proliferation and new blood vessel formation, thereby leading to normalization of the tumor vasculature ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
