Gremubamab

Cat. No.:	HY-P99649
CAS No.:	1800381-36-5
Target:	Bacterial
Pathway:	Anti-infection
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	Gremubamab (MEDI3902) is a humanized IgG1 kappa anti-PcrV/Psl monoclonal antibody. Gremubamab binds to the PA PcrV protein and Psl exopolysaccharide. Gremubamab has the potential for the research of pseudomonas aeruginosa infections [1][2].	
In Vivo	Gremubamab (1, 5, 15 mg/kg; i.v.; at 1 h postinfection) improves survival outcomes in rabbit acute pneumonia model ^[2] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.	
	Animal Model:	Rabbits (acute pneumonia model) ^[2]
	Dosage:	1, 5, 15 mg/kg
	Administration:	I.v.; at 1 h postinfection
	Result:	Improved survival outcomes in a dose-dependent manner in a rabbit acute pneumonia model.
