Clivatuzumab

Cat. No.:	HY-P99968
CAS No.:	1622075-09-5
Target:	Mucin
Pathway:	Immunology/Inflammation
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	Clivatuzumab is a humanized anti-mucin monoclonal antibody targeting an epitope in the MUC1 antigen expressed in most pancreatic cancers ^[1] .
In Vitro	Clivatuzumab demonstrates high specificity for pancreatic ductal adenocarcinoma (PDAC) with little to no reactivity towards normal and benign, non-neoplastic, pancreatic tissues, although it does show limited reactivity (approximately 10% of all specimens examined) with adenocarcinomas originating in certain other organs (e.g., stomach, colon, lung) ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
