Pentadecanoic acid-d₂₉

Cat. No.:	HY-W004283S
CAS No.:	130348-95-7
Molecular Formula:	C ₁₅ HD ₂₉ O ₂
Molecular Weight:	271.58
Target:	Endogenous Metabolite
Pathway:	Metabolic Enzyme/Protease
Storage:	4°C, sealed storage, away from moisture and light * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture and light)

BIOLOGICAL ACTIVITY

Description	Pentadecanoic acid-d ₂₉ is the deuterium labeled Pentadecanoic acid. Pentadecylic acid is a saturated fatty acid with a 15-carbon backbone.
In Vitro	Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
