## Palmitoleic acid-d<sub>13</sub>

Cat. No.:	HY-W011873S1
CAS No.:	2692623-92-8
Molecular Formula:	C <sub>16</sub> H <sub>17</sub> D <sub>13</sub> O <sub>2</sub>
Molecular Weight:	267.49
Target:	Endogenous Metabolite
Pathway:	Metabolic Enzyme/Protease
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

Description	Palmitoleic acid-d <sub>13</sub> is the deuterium labeled Palmitoleic acid. Palmitoleic acid, a composition of fatty acid, is implicated in the prevention of death from cerebrovascular disorders in SHRSP rats.
In Vitro	Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs <sup>[1]</sup> . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
