## 4,4'-Dihydroxydiphenylmethane-<sup>13</sup>C<sub>12</sub>

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Cat. No.:          | HY-W014901S1                                                                              |
| Molecular Formula: | C <sup>13</sup> <sub>12</sub> H <sub>4</sub> O <sub>2</sub>                               |
| Molecular Weight:  | 204.08                                                                                    |
| Target:            | Isotope-Labeled Compounds                                                                 |
| Pathway:           | Others                                                                                    |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

### BIOLOGICAL ACTIVITY

#### Description

4,4'-Dihydroxydiphenylmethane-<sup>13</sup>C<sub>12</sub> is the <sup>13</sup>C labeled 4,4'-Dihydroxydiphenylmethane (HY-W014901). 4,4'-Dihydroxydiphenylmethane is a phenolic derivative with antioxidant activities<sup>[1]</sup>.
