Rabbit anti Ibuprofen

Catalogue number: **M51p**

Clone	Polyclonal
Product Type	Primary Antibodies
Units	0.5 ml
Host	Rabbit
Application	ELISA

Distributors

Background

Ibuprofen is an anti-inflammatory drug used for pain relief, fever reduction and against swelling. It is one of the most sold over-the-counter drugs. It is found in the environment, especially in the water environment in the neighbourhood of large cities and hospitals.

Source

Rabbit immune serum, purified caprylic acid extraction.

Product

Each vial contains 0.5 ml 0,8mg/ml of purified (caprylic acid) polyclonal antibody

Applications

Dilution of 1/300 from the delivered extract. (The titer is defined as the dilution that gives 50 % of the absorbance from the maximum absorbance when tested with ELISA). Suggested concentration to use in ELISA : 1/200 from the delivered solution. Plates are coated with 400 ng/ml OVA- derivative. HRP-conjugated anti-rabbit IgG as a tracer 1/8000

Cross Reactivity

Cross Reactivity Compound tested % Cross- reactivity Bezaifibrate 0.4% Gemfibrozil 0.2% Bisphenol A 0.6% Ibuprofen 100% Carazolol <0.1% Metoprolol 0.1% Chlorpyrifos 0.3% Naproxen 2.2% Clofibric acid 0.3% Nonylphenol 1.3% Diclofenac <0.1% Octylphenol 0.6% Erythromycine 0.1% Propanolol 0.1% Fenitrothion 0.5% Vinclozolin <0.1% Fenofibrate 0.5% Zearalenon 0.2%

Specificity

Immunogen: BSA-Ibuprofen derivative conjugate, Target: Ibuprofen, CAS no.: 15687-27-1, Solubility: Organic solvents, PEGs.

Storage

Store at 4 °C or aliquot and store at -20 °C for longer periods. Precautions should be taken upon storage for longer periods. Problems of long term stability may occur with highly diluted solutions. No other preservative agent has been added to the present formulation. For long storage purposes in solution the addition of sodium azide at 0.02 % is advised with the appropriate precautions of use.

Caution

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This product contains sodium azide. To prevent formation of toxic vapors, do not mix with strong acidic solutions. To prevent formation of potentially explosive metallic azides in metal plumbing, always wash into drain with copious quantities of water. This datasheet is as accurate as reasonably achievable, but Nordic-MUbio accepts no liability for any inaccuracies or omissions in this information.
