Mouse anti TIAM

Catalogue number: **MUB1806P**

Clone	F5S F6.2
Isotype	IgG2b
Product Type	Primary Antibodies
Units	0.1 mg
Host	Mouse
Species reactivity	Human
Application	Immunoblotting Immunohistochemistry (frozen)

Background

Tiam1, also known as T-cell lymphoma invasion and metastasis-inducing protein 1, is a protein that in Humans is encoded by the TIAM1 gene. TIAM1 is tightly associate with BAIAP2 as a subunit. It contains one DH (DBL-homology) domain, one PDZ domain, two PH domains and one Ras-binding RBD domain. TIAM1 modulates the activity of Rho GTP-binding proteins and connects extracellular signals to cytoskeletal activities. In addition, TIAM1 activates Rac1, CDC42, and to a lesser extent RhoA. TIAM1 is found in virtually all tumor cell lines examined including B- and T-lymphomas, neuroblastomas, melanomas and carcinomas.

Source

F5S F6.2 is a Mouse monoclonal IgG2b antibody derived by fusion of SP2/0 Mouse myeloma cells with spleen cells from a BALB/c Mouse immunized with T-cell lymphoma invasion and metastasis-inducing protein 1 (Tiam1).

Product

Each vial contains 100 ul 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide.

Applications

F5S F6.2 is useful for western blot and immunohistochemistry on frozen sections. Optimal antibody dilution should be determined by titration.

Specificity

F5S F6.2 is a Mouse monoclonal directed anti the N-terminal region of Tiam1.

Storage

Store at 4°C, or in small aliquots at -20°C.

Caution

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This product contains sodium azide. To prevent formation of toxic vapors, do not mix with strong acidic solutions. To prevent formation of potentially explosive metallic azides in metal plumbing, always wash into drain with copious quantities of water. This datasheet is as accurate as reasonably achievable, but Nordic-MUbio accepts no liability for any inaccuracies or omissions in this information.
