**Datasheet for 000-001-GQ2****MEK2 C-Term Blocking Peptide****Overview**

<b>Description:</b>	MEK2 C-Term Blocking Peptide - 000-001-GQ2
<b>Item No.:</b>	000-001-GQ2
<b>Size:</b>	50 µg

**Product Details**

<b>Background:</b>	Mitogen-activated protein kinase kinase 2, also known as MEK2 or MKK2, is an integral component of the MAP kinase cascade that regulates cell growth and differentiation. This pathway also plays a key role in synaptic plasticity in the brain. Activated MEK 2 acts as a dual specificity kinase phosphorylating both a threonine and a tyrosine residue on MAP kinase. MEK1 and MEK2 are about 80% identical to each other, and nearly identical within the kinase domain. MEK2 is ideal for investigators involved in Neuroscience, Cell Signaling and Cancer Research.
<b>Synonyms:</b>	MAP2K2, MEK, MEK2, MKK2, PRKMK2 ,CFC4, MEK-2 Blocking Peptide, MEK-2 Control Peptide
<b>Type:</b>	Peptide

**Target Details**

<b>Gene Name:</b>	MAP2K2
<b>Purity/Specificity:</b>	Purity was determined to be greater than 95% specific peptide by analysis by HPLC and by reducing and non-reducing SDS-PAGE.
<b>Relevant Links:</b>	<ul style="list-style-type: none"><li>• <a href="#">UniProtKB - P36507</a></li></ul>

**Application Details**

<b>Application Note:</b>	MEK2 C-term blocking peptide is suitable as a control for polyclonal or monoclonal Anti-MEK2 in immunological assays.
<b>Assay Dilutions:</b>	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
<b>WB:</b>	50ng

## Formulation

<b>Physical State:</b>	Lyophilized
<b>Concentration:</b>	1.0 mg/mL by dry weight
<b>Buffer:</b>	None
<b>Preservative:</b>	0.01% (w/v) Sodium Azide
<b>Stabilizer:</b>	None
<b>Reconstitution Volume:</b>	50 $\mu$ L
<b>Reconstitution Buffer:</b>	Restore with deionized water (or equivalent)

## Shipping & Handling

<b>Shipping Condition:</b>	Ambient
<b>Storage Condition:</b>	Store vial at 2-8 °C prior to opening. Aliquot contents and freeze at -20 °C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. Dilute only prior to immediate use.
<b>Expiration:</b>	Expiration date is six (6) months from date of receipt.

## Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc. If you require a commercial license to use this material and do not have one, then return this material, unopened to: Rockland Inc., P.O. BOX 5199, Limerick, Pennsylvania, USA.
