#### Datasheet for 025-0144

# Llama IgG2 isotype control

### **Overview**

Description:	Llama IgG2 Isotype Control - 025-0144
Item No.:	025-0144
Size:	0.5 mg
Applications:	SDS-PAGE
Origin:	Llama

#### **Product Details**

Product Details	
Background:	Comparative studies of old world camelids (Camelus bactrianus and Camelus dromedarius) and new world camelids (Lama pacos, Lama glama and Lama vicugna) have shown that heavy-chain-only immunoglobulins represent between 35% - 70% of total IgG in the sera of all species. Such antibodies are homodimers of heavy chains that lack the CH1 domain of conventional antibodies and therefore do not interact with light chains, exhibiting a lower molecular weight ~100 kDa.  In Ilama and other species of camelids, these heavy-chain-only immunoglobulins belong to the IgG2 and IgG3 subclasses of gamma chain antibodies.
Synonyms:	Llama IgG2 isotype, Llama IgG2 subclass isotype, Llama IgG2a, IgG2b, IgG2c
Species of Origin:	Llama
Format:	IgG
Type:	Native Protein

### **Target Details**

Purity/Specificity: Llama IgG2 isotype control (which consists of IgG2a, IgG2b and IgG2c isotypes) has been

prepared from Ilama serum by multiple chromatography steps using a combination of protein A and protein G chromatography. Coomassie stained SDS-PAGE of non-reduced Ilama IgG2 shows a band of  $^100$  kDa whereas the reduced form exhibits  $^46$  kDa. No bands corresponding to Ilama IgG1 or IgG3 are observed.

## **Application Details**

www.rockland.com Page 1 of 3

<b>Tested Applications:</b>	SDS-PAGE
Application Note:	Llama IgG2 isotype control has been tested by SDS-Page and can be utilized as a control or standard reagent in Flow Cytometry, Western Blotting, and ELISA experiments where determination of sample isotype is important.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
ELISA:	User Optimized
FC:	User Optimized
WB:	User Optimized
Other:	Lot approved for SDS page at 1x reduced and non-reduced.

## **Formulation**

Physical State:	Liquid (sterile filtered)
Concentration:	1.0 mg/ml by modified Lowry assay
Buffer:	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative:	0.01% (w/v) Sodium Azide
Stabilizer:	None

# **Shipping & Handling**

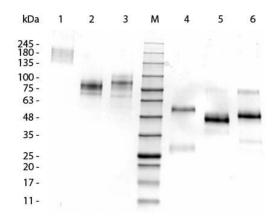

<b>Shipping Condition:</b>	Dry Ice
Storage Condition:	Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.

#### **SDS-PAGE**

SDS-PAGE of Llama IgG2 Isotype Control. Lane 1: Llama IgG1 (p/n 025-0140), Non-reduced. Lane 2: Llama IgG2 (p/n 025-0143), Non-reduced. Lane 3: Llama IgG3 (p/n 025-0144), Non-reduced. M: 3µL Opal Pre-stained Ladder (MB-210-0500). Lane 4: Llama IgG1, Reduced. Lane 5: Llama IgG2, Reduced. Lane 6: Llama IgG3, Reduced. Load: 1.0 µg per lane. Predicted/Observed size: Llama IgG2 80 kDa Non-reduced; 46 kDa Reduced.

### **Disclaimer**

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc. If you require a commercial license to use this material and do not have one, then return this material, unopened to: Rockland Inc., P.O. BOX 5199, Limerick, Pennsylvania, USA.
