## Datasheet for 100-401-046

## Alpha-1-Acid Glycoprotein Antibody

### Overview

<b>Description:</b>	Anti-Alpha-1-Acid Glycoprotein (Human Plasma) (RABBIT) Antibody - 100-401-046
<b>Item No.:</b>	100-401-046
<b>Size:</b>	2 mL
<b>Reactivity:</b>	Human
<b>Host Species:</b>	Rabbit

### Product Details

<b>Background:</b>	Alpha-1-Acid Glycoprotein 1 functions as transport protein in the blood stream. It binds various ligands in the interior of its beta-barrel domain. Alpha-1-Acid Glycoprotein also binds synthetic drugs and influences their distribution and availability in the body. It appears to function in modulating the activity of the immune system during the acute-phase reaction.
<b>Synonyms:</b>	rabbit anti-Alpha 1 acid glycoprotein antibody, Alpha 1 agp antibody, Glycoprotein alpha acid of serum antibody, OMD 1 antibody, omd1 antibody, orm antibody, ORM1 antibody, Orosomuroid 1 antibody, agpa antibody,
<b>Host Species:</b>	Rabbit
<b>Clonality:</b>	Polyclonal
<b>Format:</b>	Antiserum

### Target Details

<b>Gene Name:</b>	ORM1
<b>Reactivity:</b>	Human
<b>Immunogen Type:</b>	Native Protein
<b>Immunogen:</b>	Alpha-1-Acid Glycoprotein [Human Plasma]
<b>Purity/Specificity:</b>	This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-rabbit serum, purified and partially purified Alpha-1-Acid Glycoprotein [Human Plasma]. Cross reactivity against Alpha-1-Acid Glycoprotein from other tissues and species may occur but have not been specifically determined.

------------------------	---

## Application Details

<b>Application Note:</b>	Anti-Alpha-1-Acid Glycoprotein has been assayed against 1.0 ug of Alpha-1-Acid Glycoprotein [Human Plasma] in a standard ELISA using Peroxidase conjugated Affinity Purified anti-Rabbit IgG [H&L] (Goat) code #611-1302 and (ABTS (2,2'-azino-bis-[3-ethylbenthiiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:2,000 to 1:10,000 of the reconstitution concentration is suggested for this product.
--------------------------	---

<b>Assay Dilutions:</b>	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
-------------------------	---

<b>ELISA:</b>	1:20,000 - 1:100,000
---------------	----------------------

<b>IHC:</b>	1:500 - 1:2,500
-------------	-----------------

<b>WB:</b>	1:2,000 - 1:10,000
------------	--------------------

## Formulation

<b>Physical State:</b>	Lyophilized
------------------------	-------------

<b>Concentration:</b>	90 mg/mL by Refractometry
-----------------------	---------------------------

<b>Buffer:</b>	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
----------------	--

<b>Preservative:</b>	0.01% (w/v) Sodium Azide
----------------------	--------------------------

<b>Stabilizer:</b>	None
--------------------	------

<b>Reconstitution Volume:</b>	2.0 mL
-------------------------------	--------

<b>Reconstitution Buffer:</b>	Restore with deionized water (or equivalent)
-------------------------------	--

## Shipping & Handling

<b>Shipping Condition:</b>	Ambient
----------------------------	---------

<b>Storage Condition:</b>	Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
---------------------------	---

<b>Expiration:</b>	Expiration date is one (1) year from date of receipt.
--------------------	---

## Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc.
